Greetings Union Brothers and Sisters:

It is officially summer! Not the normal summertime we're accustomed to because of the pandemic and the limited number of businesses opened, as well as things to do or places to travel for vacation. Whatever you decide to do, remember to practice safety first. I encourage all of you to do your part to help overcome this pandemic by wearing your face covering, maintaining social distancing and washing your hands regularly. Also, remember to avoid large gatherings and please do your best to protect yourself and others to prevent the spread of this virus. We must continue to be cautious; the virus hasn't gone anywhere yet.

I do acknowledge the positive cases of COVID is rising in many places and especially here at NNS. Many have asked what the Union doing about this is. Honestly, the Union cannot control the rise of positive cases. However, we can and do question the Company about what they are doing to combat this rise according to CDC guidelines and their precautionary measures. I've spoken with President Boykin a few times, who is very open to realistic and positive suggestions that will help keep employees safe. I plan to reach out to her again soon.

I have been away from the social media post for a while. I do try to return and reply to all phone calls and messages. I had received over 1,000 calls. I do respect and have concerns for every inquiry. I was elected to address these matters and that is what I intend to do to the best of my ability.

Continued on Page 3

We are returning to the gates with our masks on to field more questions and concerns. Your stimulus pay package is still on the desks of Senate Committees. Hopefully, we will have some positive news from them real soon.

Please feel free to call me or stop by to share your suggestions and ask questions. No question is too crazy to ask, although some may be unrealistic to achieve. The Union does fight for its members, not only in papers or on social media. We fight behind the scenes, which many times goes unnoticed, but often times with success.

Call me at 757-247-5291 ext. 111.

With Temperatures Rising, Company Changes Water/ Ice Practices Over Sanitation Concerns

Sharable and refillable large water coolers, as well as bags of ice were made available in previous summers to help combat the heat and keep workers hydrated. This will not be the case this year.

The large water coolers present an opportunity for illness to spread due to the difficulties in keeping them clean and sanitary at the work site.

All large water coolers should be returned to the tool rooms as soon as possible.

To replace these, Personal 1-Gallon water jugs are to be distributed by each program's administration to their workers. Workers are responsible for cleaning their own jugs at home.

7lb bags of Ice will be available for workers, but are not to be shared between multiple workers.

DO NOT LET YOUR VOICE BE SILENCED!

There is an election every year in Virginia. When you choose not to vote, you choose to let someone else make the decisions and speak for you. Only 72% of Virginia voters made their own decision in 2016 and less than half made a choice last year.

Do not let the inconvenience or distrust of the system silence you. It will only get better if everyone takes part. If you are not voting, they are not listening.

Do not let fear of the virus silence you. Use the websites above to vote absentee. Your voice and your vote matters. Be Heard.

TIMELINESS ON FILING A CLAIM

In recent months we have met with a number of Steelworkers who were voluntarily paid lost wage benefits (compensation) when their injury occurred, so they did not file claims with the U.S. Department of Labor. Years later, when their injuries flared up, the shipyard refused to pay lost wage benefits (compensation) because the claim was not filed in a timely manner.

Please do not let the employer lull you into complacency. You must file your claim with the U.S. Department of Labor. Notifying your employer is not enough. The employer does not and cannot file the claim for you.

For a **traumatic injury**, the claim must be filed within one (1) year of the injury, or one year from the last date compensation is paid, whichever occurs later. For a **repetitive injury**, the claim must be filed within one (1) year of the date the injured worker knows, or should have known, that the injury was due to their working conditions. For an **occupational injury or illness**, the claim must be filed within two (2) years from the date the injured worker first became aware of the relationship between the occupational disease, the disability and the working conditions of employment.

There are numerous exceptions to the above time periods. If an injured worker has questions as to whether they can file a timely claim, or need assistance pursuing these benefits, please contact us at **757-622-8100**.
